PVC FLEX

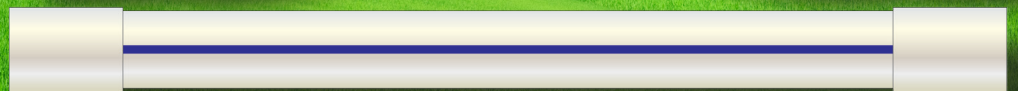

IRRIGATION COUPLING

FLEXIBILITY WHEN IT MATTERS

**OBSTACLES &
ODD ANGLES**

REPAIRS

PIPE OFFSETS

Spears® PVC Flex Irrigation Couplings are:

- Made from a flexible PVC and available in IPS sizes 1/2", 3/4" and 1".
- 18" overall length for connection to virtually any pipe angle.
- Ideal for quick, easy leak repairs, connecting odd angles or avoiding obstructions.
- For use in underground irrigation systems subjected to intermittent pressures only.
- Pressure rated to 100psi @ 73°F (23°C).

Do Not install upstream of a valve or in constant pressure applications. Not for use in potable or hot water applications.

Part Number	Size (in.)	Box Quantity	Weight (lbs.)
FRC-005	1/2	60	0.37
FRC-007	3/4	50	0.54
FRC-010	1	30	0.94
